

## Income Tax - Refund Status (Current Filing Year)

*What is the status of my income tax refund?*

Income tax refunds are issued in 2-4 weeks if your return is filed in January or February. However, the later in the tax season you file, the longer it will take to receive your refund. Refund requests received in April can take 8-10 weeks to process. **If your return contains math errors or other problems, your refund may be delayed beyond the above listed timeframe.**

You may inquire about the status of your refund for this year by visiting our [Automated Account Information Services Program](#), 24-hours a day, seven days a week throughout the income tax season.

Specific personal tax information must be provided to check your refund status. You must have **one** of the following available:

Your refund amount for this year or last year

The amount of any estimated income tax payment

Information on any balance due notice you received

Our authorized PIN number issued by the department. (If you want to have a PIN number assigned, go to the Web site address above and a **PIN** will be mailed to you.)

This information is also available at (303) 238-FAST (3278)
